RADIOLOGIC TECHNOLOGY ASSOCIATE OF APPLIED SCIENCE

Parker University's Radiologic Technology program prepares students to perform diagnostic imaging procedures that are often instrumental to a patient's diagnosis and care. With the use of imaging systems, graduates of Parker's Radiologic Technology program stand ready to serve in a variety of dynamic healthcare institutions around the world.

LEARN IT. LIVE IT.

PARKER UNIVERSITY'S DEGREE IN RADIOLOGIC TECHNOLOGY

Our students help lead healthcare forward. With our two-year Radiologic Technology degree, students learn the importance of patient-centric service, while studying the latest evidence-based teachings. Through training in and out of the classroom, graduates are prepared to perform diagnostic procedures, produce and analyze images and handle patient care needs. Parker students learn to both serve and lead in evolving environments.

WHY PARKER'S RADIOLOGIC TECHNOLOGY PROGRAM?

- Offered in evening classes on the Parker University campus with six months of hands-on clinical rotations at imaging facilities throughout DFW and surrounding areas
- Two semester of general education coursework followed by four semesters of core curriculum for a total of six semester (24 months) and 74 credit hours
- Intentionally small, diverse cohorts and classes to focus your learning
- Focused curriculum and learning environment designed to be ideal for first-time college students and career changers alike

An Associate of Applied Science in Radiologic Technology is required for entry into the radiologic technology profession. Parker prepares students to immediately jump into the field through hands-on learning and clinical rotations built to teach all of the technical and patient skills needed to work in imaging centers and hospitals.

STATS

6% Growth Rate¹

6% Radiologic Technology jobs over a 10-year period

15,400 Jobs¹

15,400 available jobs to be filled through 2032.

\$76,020 Median Income¹

The median annual wage for radiologic technologists and technicians is \$76,020.
